It is recommended that children are not left in Childcare for more than two and a half hours at a time. For safety and liability reasons, only parents who are legal guardians, and members of the Club, are allowed to check in and out their children. Relatives, friends, grandparents, and nannies may not check children in and out.

Health Guidelines

Early childhood settings, such as a childcare, present unique challenges for infection control due to the highly vulnerable population, close personal contact, shared toys and other objects, and limited ability of young children to understand or practice good respiratory etiquette and hand hygiene. Oakwood asks that parents be observant and conscious of their child's health at all times and not bring them to Childcare if they are exhibiting signs of illness or have stayed home sick from school.

Purell is available at the Front Desk of Childcare. Please help your children sanitize their hands upon entry and exit of Childcare to prevent the spread of germs. Purell stations are located throughout our Childcare facility and children are encouraged to use them throughout their time in Childcare. Staff will assist children in sanitizing their hands when necessary.

In order to ensure a healthy environment staff will not allow children into Childcare that exhibit the following symptoms:

Fever	Any temperature above 99.0 or subnormal temperature
Cold	A runny nose with colored discharge, a fever, loss of energy.
Cough	Any cough with mucus secretion (a wet or wheezy cough).
Rash or Skin Irritation	Poison Oak, impetigo, ring worm, cold sores, head lice, and communicable diseases (measles, chicken pox, mumps, etc.) with a rash or itching symptoms. Food or other allergy irritation must be substantiated.

Vomiting	Vomiting for any reason.
Pink Eye	Any unusual irritation of the eye or mucus membranes (such as conjunctivitis).

Please note that if a child exhibits any of the above symptoms while in Childcare you will be asked to pick them up from Childcare immediately.

Please be courteous of other children and staff by assessing your children's health before bringing them to Childcare. Oakwood staff will assess each child's health upon arrival and will use discretion in not allowing a child to enter if they show signs of illness.

If your child is diagnosed with a contagious illness and has recently utilized Childcare please inform the Childcare Manager immediately. Examples of such illnesses include lice, hand foot and mouth, chicken pox, measles, H1N1 influenza, etc. Childcare will post signs specifying any such illnesses that have been reported as soon as possible. This posting is for informational purposes and does not indicate that Oakwood is the source of the illness or that other children have contracted a given illness due to their presence in Childcare.

Behavioral Management

We understand that children are still learning acceptable behaviors and growing as individuals. Our staff will work with your child to ensure proper and safe behavior. Childcare staff does utilize time outs if necessary. In order to ensure the safety of all children, if a child exhibits aggressive behavior toward another child and inflicts physical harm, i.e. biting or hitting, the parent of the aggressor will be notified to remove their child from Childcare immediately. The second such incident of this type will result in a 30 day suspension of Childcare privileges in order to allow time for behavior modification. Management reserves the right to modify said suspension policy at any given time.

Disrespect or vulgar language towards Childcare staff or other children will not be tolerated and the parent will be asked to remove their child if this occurs. The second such incident of this type will also result in a 30 day suspension of Childcare privileges.

We appreciate your understanding in our behavior policies and illness policies which are put into place to provide a safe environment for all children.
